

## M12 female 0° A-cod. with cable

TPE 5x18AWG ye UL/CSA. ITC/PLTC 15m

Female straight Cable is approved for 600 V M12, 5-pole USA

Cable is approved for 600 V

Plastic housings with good resistance against chemicals and oils.

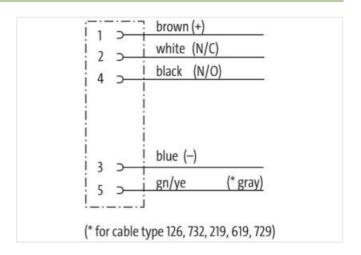

The resistance to aggressive media should be individually tested for your application. Further details on request.

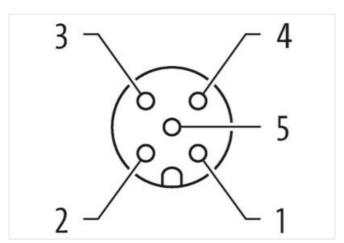

Further cable lengths on request.

| Operating temperature min.               | -25 °C                                                                                                                                         |
| Operating temperature max.               | 85 °C                                                                                                                                          |
| Additional condition temperature range   | depending on cable quality                                                                                                                     |
| Important installation notes             |                                                                                                                                                |
| Note on strain relief                    | Protect the connectors by suitable measures from mechanical loads, e.g. by the usage of cable ties.                                            |
| Note on bending radius                   | Attention: Observe the permissible bending radii when laying cables, as the IP protection class can be endangered by excessive bending forces. |
| Conformity                               | endangered by excessive bending forces.                                                                                                        |
| Conformity                               |                                                                                                                                                |
